FAQ

What do you need to get an animation for my logo, intros or outros?

We need only your logo in an editable vector file. Anyway, we will send you a delivery form with the requirements needed.

Can I use my animated logo in my website?

Yes, of course, you can also use it on your own app, videos intro, etc. We can help you on all of this.

For your marketing videos do you provide Scriptwriting?

Yes, we can do it, but we will need short lines of text or a press release. Scriptwriting will have an extra charge, otherwise you can send your text script for the video.

Am I going to have copyright ownership to the videos?

Yes, you can use your videos on any social media platform or for internal use. Also, the music used is royalty-free so, you won't have any copyright problem.

What's the difference between a Logo animated and an Intro?

Could be the same, an animated logo is an animation of your logo with sound effects, background music, and movement. An intro could not be your logo, could be another image or slogan, with background music, sound effects. But we can say that most of our customers, prefer the intro & outro package, and get their logo animated as an intro, this will be better as the price is lower.

What is the format of my logo animated / intro / outro?

MP4 full HD.

Could I use my own music on your videos / intros / outros?

Yes of course, send it to us, and we will include it as background.

Do you have some samples of your previous jobs done?

Yes of course, Please ask for them, and we can show you samples of our work.
