## FAQ

### **What we require before starting your project?**

If you already have a hosting service provider, we will need your Wordpress Info, Control panel login, content or text that will go on each page of website. If you don't have content, there is no problem, we can enter content (price not included).

If you don't have a hosting/domain, and you get this feature with us, we'll need name of your business. Then we will show you the available domain names. After you pick one, we can install and setup your domain and hosting.

### **If I get the basic web design with hosting included, what is included on the Monthly fee?**

With the monthly fee you will be sure that your hosting and domain services are going to be available for your website.

For Basic and Customized Web Design, we can make some activities like: Email accounts creation (up to 5), email account password resets (up to 10), Basic changes on your website like: picture replacement, text changes (up to 3 events).

For E-Commerce Web Design, we can modify up to 10 products.

In case you need something else, please come to us and we will let you know the available options for you.

### **I want to upgrade from basic website to a customized website, is that possible?**

Yes, of course, we can add the desired updates on your website, contact us first to get all the details and pricing.

### **I subscribed to the monthly fee, but I will get a new hosting service provider, can I migrate my website?**

Yes, we can help you to do that, you need to notify us prior your payment date, to stop the recurring payments, and as we need to provide you with credentials, get the files for your website, and DNS records to point to your new provider, this will have an extra charge. Contact us to get the exact price.

**What are the main features for the host service provider that you use?** Unlimited email accounts, 99.9% uptime guarantee, DNS Management, Daily backups, Litespeed cache, etc.

**I need SSL certificate on my domain, will you get it?** Yes, If you get our monthly fee, and setup, you will get free the SSL Certificate.

**I want to modify my website, and I got your hosting and domain with you, can I do it?** Yes, we can provide you the credentials so you can make any changes on your website. But before requesting it, come to us and let us know what you need, we can help you.
